## <u>Limitations:</u>

- \*Note: Our App is still in development. Due to time constraints and moments of uncoordinated collaboration the app's functions have not been completely implemented:
- One limitation to our app is we were unable to implement a fully functional reminder system that would remind a user to check-off their habit for the day.
- Another limitation to our app is we were unable to verify if it could support multiple users simultaneously.
- Another limitation to our app is not all of our tabs are fully functional. Calendar, Streaks, Badges, and Settings have not been fully implemented.

## **Honor Statement:**

We, the creators of HabitApp, affirm that all work submitted in this project is our own, and we have adhered to the university's academic integrity policy throughout the process.
